THISMONTH

We're getting a little excited about new young Irish talent as spotted at Tent London, the showcase for the hottest emerging designers from around the world. Trevor Vaugh and Nic Shannon studied industrial design in Carlow IT, and have collaborated to create bright and quirky pieces for the home. Functional but funky is the order of the day, and their fresh approach has already created a bit of a buzz and earned them a growing fanbase. You saw them here first. For more information visit www.vaughshannon.com or contact Tel: 087 903 9314.
